18

Number of students in supervised clinical experience during this academic year

Number of students in supervised clinical experience during this academic year

38

Please provide any additional information about or descriptions of the supervised clinical experiences: In the Alternative Path MED (Secondary) program, teaching interns teach full time as teachers of record in classrooms while taking classes toward their degree. Each teaching intern receives ongoing coaching during the first year from a full-time coach/clinical instructor who observes the teaching intern actively teaching, provides guidance and coaching, and assists the teaching intern in self-reflection to improve teaching competence and confidence in the classroom. During the second year, teaching interns receive mentor support from adjunct faculty mentors and school-based supervising practitioners (in lieu of cooperating teachers). The supervising practitioners are assigned by school administrators. Teaching interns are evaluated by supervising practitioners and administrators in the schools in which they teach. In addition, teaching interns attend monthly, full-day teacher education seminars in which they integrate coursework, study best practices in teaching, and collaborate with instructors, coaches, and peers to grow in their teaching practice. For teaching interns, teaching for a minimum of one full school year on an Alternative Teaching Certificate meets the Arizona Department of Education's student

Section I: Program Information

Teachers Prepared

On this page, enter the number of program completers by the subject area in which they were prepared to teach, and by their academic majors. Note that an individual can be counted in more than one academic major and subject area. For example, if an individual is prepared to teach Elementary Education and Mathematics, that individual should be counted in both subject areas. If no individuals were prepared in a particular academic major or subject area, you may leave the cell blank. Please use the "Other" category sparingly, if there is no similar subject area or academic major listed. In these cases, you should use the text box to describe the subject area(s) and/or the academic major(s) counted in the "Other" category.

If your IHE offers both traditional and alternative programs, be sure to enter the program completers in the appropriate reports. For the traditional report, provide only the program completers in traditional programs within the IHE. For the alternative report, provide only the program completers for the alternative programs within the IHE.

After entering the teachers prepared data, save the page using the floating save box at the bottom of the page.

Key terms in this section are listed below. Click on the link to view the definition(s) in the glossary.

- [Academic Major](#)

This Page Includes:

- [Teachers Prepared by Subject Area](#)
- [Teachers Prepared by Academic Major](#)

Teachers Prepared by Subject Area

[Back To Top](#)

Please provide the number of teachers prepared by subject area for academic year 2020-21.

For the purposes of this section, number prepared means the number of program completers. "Subject area" refers to the subject area(s) an individual has been prepared to teach. An individual can be counted in more than one subject area. If no individuals were prepared in a particular subject area, please leave that cell blank. [\(\\$205\(b\)\(1\)\(H\)\)](#)

What are CIP Codes?

☐ No teachers prepared in academic year 2020-21

If your program has no teachers prepared, check the box above and leave the table below blank (or [clear responses already entered](#)).

What are CIP codes? The Classification of Instructional Programs (CIP) provides a taxonomic scheme that supports the accurate tracking and reporting of fields of study and program completions activity. CIP was originally developed by the U.S. Department of Education's National Center for Education Statistics (NCES) in 1980,

Teachers Prepared by Subject Area

Teachers Prepared by Academic Major

[Back To Top](#)

Please provide the number of teachers prepared by academic major for academic year 2020-21. For the purposes of this section, number prepared means the number of program completers. "Academic major" refers to the actual major(s) declared by the program completer. An individual can be counted in more than one academic major. If no individuals were prepared in a particular academic major, please leave that cell blank. ([§205\(b\)\(1\)\(H\)](#))

Please note that the list of majors includes several "Teacher Education" majors, as well as several noneducation majors. Please use care in entering your majors to ensure education-specific majors and non-education majors are counted correctly. For example, if an individual majored in Chemistry, that individual should be counted in the "Chemistry" academic major category rather than the "Teacher Education–Chemistry" category.

[What are CIP Codes?](#)

Do participants earn a degree upon completion of the program? ☒ Yes

☐ No

☐ No teachers prepared in academic year 2020-21

If your program does not grant participants a degree upon completion, or has no teachers prepared, leave the table below blank (or [clear responses already entered](#)).

Section I: Program Information**Program Assurances**

Respond to the following assurances. Note: Teacher preparation programs should be prepared to provide documentation and evidence, when requested, to support the following assurances. [\(§205\(a\)\(1\)\(A\)\(iii\); §206\(b\)\)](#)

This Page Includes:

Program Assurances

[Back To Top](#)

1. Program preparation responds to the identified needs of the local educational agencies or States where the program completers are likely to teach, based on past hiring and recruitment trends. ☒ Yes
☐ No
2. Preparation is closely linked with the needs of schools and the instructional decisions new teachers face in the classroom. ☒ Yes
☐ No
3. Prospective special education teachers are prepared in core academic subjects and to instruct in core academic subjects. ☐ Yes
☐ No
☒ Program does not prepare special education teachers
4. Prospective general education teachers are prepared to provide instruction to students with disabilities. ☒ Yes
☐ No
5. Prospective general education teachers are prepared to provide instruction to limited English proficient students. ☒ Yes
☐ No
6. Prospective general education teachers are prepared to provide instruction to students from low-income families. ☒ Yes
☐ No
7. Prospective teachers are prepared to effectively teach in urban and rural schools, as applicable. ☒ Yes
☐ No
8. Describe your institution's most successful strategies in meeting the assurances listed above: Responding to Needs of Local Educational Agencies: The majority of Alt Path teaching interns teach and participate in the M.Ed. Program in the southern Arizona communities in which they live which include the rural border communities of Nogales and Douglas; Sierra Vista, which is a small city in a rural county; and Pima County, near Tucson, Arizona which is a large urban area. The border communities in particular are areas of high teacher need but there are high need communities throughout the three main counties served by the program. The Alt Path Program's strong commitment to a "Grow your Own" outreach effort enables program graduates to remain in the area as teachers who wish to support their communities. This connection to community improves teacher retention, teaching quality, and school to community outreach. The Alt Path Program responds to identified needs of school districts located in the borderlands of southern Arizona through ongoing, long-established partnerships. A Program Recruiter, along with two Clinical Practice Coordinators, facilitate the placement and hiring processes for teaching interns in the Alt Path Program, which helps school districts fill teaching vacancies, particularly in the areas of math and science. Program faculty and staff attend monthly county superintendent meetings during which there are often informal and formal discussions of ways in which the Program can respond to needs of school districts in southern Arizona. Active participation in a Professional Preparation Board has enhanced partnerships with school districts through discussions on facilitating smooth transitions into teaching for teaching interns. The M.Ed. Program is adaptive. By listening to faculty and teaching intern experiences, analyzing data in the classrooms in which teaching interns teach, and researching best teaching practices for the teaching interns' students, the program has developed a conceptual framework that embodies guiding principles for effective teaching and learning. These include: equity literacy, asset-based pedagogy, constructivism, developed partnerships, context-specific preparation, and action research. In the program, subject-specific courses are taught both online and face to face through monthly teaching education seminars (TES). By embedding content into the TES sessions, the teaching interns, as full time teachers of record, collaborate with faculty, program supervisors, and one another on their experiences and ways to reach all students so all will learn. Preparation Linked with the Needs of School and New Teacher Decisions: The Alt Path Program focuses on day to day application of effective teaching practices since teaching interns are actively teaching full time and need applicable, research-based teaching practices to use in the classroom right away; the program blends theory to practice from the onset. Teaching interns experience the needs of schools and the instructional decisions new teachers face right away as they actively participate in the process of teaching. They understand the classroom environment and the needs of students first hand. They plan lessons, teach students using a variety of methodologies and differentiated instruction, assess student progress, and meet the required InTASC standards. Even more, they put equity literacy into practice as a process for recognizing and responding to inequity in classrooms and schools in ways that enable them to create classroom environments that enrich teaching and learning. Special Education Teachers are Prepared in Core Subjects: Not applicable; this is a Distance campus program. Special education teachers are prepared through the University of Arizona College of Education at the Main campus. Prospective General Education Teachers are Prepared to Instruct Students with Disabilities: Teaching interns are prepared to teach students with identified disabilities. They take a semester long course focused on the population of special needs students. The best practice teaching strategies are put to use immediately in their classrooms. Teaching interns learn how to differentiate instruction and provide accommodations to support students with special needs. Prospective General Education Teachers are Prepared to Provide Instruction to Limited English Proficient Students: Teaching interns are prepared to provide instruction to limited English proficient students. All teaching interns take one, three-credit course in language acquisition theory and methods of teaching English language learners. They develop lesson plans that incorporate best practices for teaching English language learners and implement them immediately in their classrooms. Since language is inextricably linked to culture, the course is taught in the context of equity literacy and asset-based pedagogy that are fundamental elements in the program. Prospective General Education Teachers are Prepared to Provide Instruction to Students from Low-Income Families: Prospective general education teachers are prepared to provide instruction to students from low-income families. Many of the schools in which teaching interns teach are in high poverty areas and have a high number of students who qualify for the federal free or reduced lunch program. The program's context-specific focus on preparing teachers for the borderlands of Arizona involves developing in teaching interns an appreciation for their students' and their own racial/ethnic backgrounds and socioeconomic status. The program foundations include equity literacy, asset-based pedagogies, teacher mindset, self-reflection, and ongoing professional and personal development. Prospective Teachers are Prepared to Teach in Urban and Rural Schools: Teaching interns are prepared to effectively teach in urban and rural schools. They are teaching full time in urban and rural schools while they attend classes in the Program. The monthly teaching seminars (TES) provide instruction, discussion, and feedback to teaching interns regarding their experiences with their students and in their schools. The cohort of teaching interns develop close relationships with caring coaches and with each other, providing a network of support in addressing the challenges and rewards found in teaching in urban and rural schools. Courses in classroom management, methods and models of teaching, participant research, and their internships focus on the experiences of the full-time teacher in the classroom.
- Responding to Needs of Local Educational Agencies: The majority of Alt Path teaching interns teach and participate in the M.Ed. Program in the southern Arizona communities in

Section III: Program Pass Rates

Assessment Pass Rates

The pass rates table is populated from files provided by the testing company or state. The table provides information on the performance of the students in your teacher preparation program on each teacher credential assessment used by your state. In cases where a student has taken a given assessment more than once, the highest score on that test is used. In the case of a teacher preparation program with fewer than 10 scores reported on any single initial teacher credential assessment during an academic year, the program shall collect and publish information with respect to an average pass rate and scaled score on each state credential assessment taken over a three-year period. (§205(a)(1)(B))

Please note that this page does not have an edit feature as the pass rates have already been through several rounds of verification. If you identify an error, please contact

1. Provide the following information about the use of technology in your teacher preparation program. Please note that choosing 'yes' indicates that your teacher preparation program would be able to provide evidence upon request. [\(§205\(a\)\(1\)\(F\)\)](#)
- Does your program prepare teachers to:
- 1. integrate technology effectively into curricula and instruction ☒ Yes
☐ No
 - 2. use technology effectively to collect data to improve teaching and learning ☒ Yes
☐ No
 - 3. use technology effectively to manage data to improve teaching and learning ☒ Yes
☐ No
 - 4. use technology effectively to analyze data to improve teaching and learning ☒ Yes
☐ No
2. Provide a description of the evidence that your program uses to show that it prepares teachers to integrate technology effectively into curricula and instruction, and to use technology effectively to collect, manage, and analyze data in order to improve teaching and learning for the purpose of increasing student academic achievement. Include a description of the evidence your program uses to show that it prepares teachers to use the principles of universal design for learning, as applicable. Include planning activities and a timeline if any of the four elements listed above are not currently in place. Technology is authentically interwoven throughout the M.Ed., Alternative Path Certification program since content delivery is delivered almost exclusively online. While there is a once-per-month face-to-face dimension to the program, which was converted to online during the pandemic, all coursework and most assignments are delivered through technology via an online platform. All of said courses are aligned with professional teaching standards including the ISTE-Nets-T Technology standards, and technology

instruction is embedded in every course in the program. Our teacher candidates are also observed, mentored, and coached in our program through the online application GoReact. Web platforms are used in all courses to engage with instructors and peer candidates, and there are explicit opportunities to interact with technology in educational contexts in multiple courses. In addition, during student teaching, candidates are assessed on their responsible use of technology in the classroom via the Student Teaching Assessment Form.

1. Provide a description of the activities that prepare general education teachers to:
 1. Teach students with disabilities effectively The Alternative Path Program prepares teaching interns to effectively teach students with disabilities in their regular classrooms through coaching and mentoring support from program-based clinical instructors, from an assigned site mentor in their school, and

The Alternative Path Program prepares teaching interns to effectively teach students with disabilities in their regular classrooms through coaching and mentoring support from program-

through a required course in teaching students with special needs.

2. Participate as a member of individualized education program teams, as defined in section 614(d)(1)(B) of the *Individuals with Disabilities Education Act*. As full time teachers of record while in the Program, teaching interns actively participate as members of individualized education program teams, participate in IEP conferences in their schools, and fulfill all requirements and processes associated with IEPs.

As full time teachers of record while in the Program, teaching interns actively participate as members of individualized education program teams, participate in IEP conferences in their

3. Effectively teach students who are limited English proficient. The ability to teach English language learners effectively is an integral element in the Program through the adoption of equity literacy as a foundational principle. Program faculty challenge teaching interns' preconceived perceptions of teaching and embed research-based assignments in courses and monthly Teacher Education Seminar (TES) sessions that demonstrate effective methods in teaching students who have been marginalized due to language and culture. The teaching interns participate in monthly, "Sin Fronteras" professional development sessions that focus on issues of equity literacy, asset-based pedagogies, and effective teaching strategies for English learners.

The ability to teach English language learners effectively is an integral element in the Program through the adoption of equity literacy as a foundational principle. Program faculty challenge

2. Does your program prepare special education teachers? ☐ Yes ☒ No

If yes, provide a description of the activities that prepare *special education teachers* to:

1. Teach students with disabilities effectively
2. Participate as a member of individualized education program teams, as defined in section 614(d)(1)(B) of the *Individuals with Disabilities Education*

Act.

3. Effectively teach students who are limited English proficient.

Please use this space to provide any additional information that describes your teacher preparation program(s). You may also attach information to this report card (see below). The U.S. Department of Education is especially interested in any evaluation plans or interim or final reports that may be available.

The M.Ed. Alternative Path Program prepares teaching interns to become effective teachers while they are actively teaching in classrooms. Learning to teach while teaching is very challenging and teaching interns are most successful when supported throughout the program. The Alternative Path Program addresses needs of new teachers as they adjust to teaching both professionally and personally. The central foundation of the program is equity literacy that teaches the knowledge, skills, and engagement to "recognize, respond to, and redress conditions that deny some students access to educational and other opportunities enjoyed by their peers." The program also emphasizes culturally-sustaining pedagogy and self-reflection of practice. Learning effective ways to individualize and differentiate instruction are key concepts taught throughout the Alternative Path Program. Teaching interns are taught strategies in using student centered instruction to increase student motivation and to customize lessons to meet individual learning needs. Teaching interns are supported throughout the Program as individual learners with unique skills and challenges. A variety of observation and evaluation processes are used by coaches and mentors as they support teaching interns. There are two full-time clinical instructors who coach students through the first year of the program. Emphasizing self-reflection, the coaches use video recordings of teaching interns to assess their progress with the students in their classrooms. The teaching interns then assess their own teaching through verbal and written self-reflection assignments. During the second year, each teaching intern is assigned a site-based supervising practitioner who is employed in the school in which the teaching intern teaches and a program-based University Mentor who supports the teaching intern's development and growth. The Program focuses on the personal and professional growth of teaching interns throughout the program. If teaching interns have a need for additional support, faculty members, coaches, mentors and program supervisors with teaching interns to identify areas to develop. The process supports each teaching intern's growth toward learner-focused teaching, quickly addresses issues as needed, and assures that each graduate sufficiently demonstrates meeting InTASC Standards to receive an Institutional Recommendation for Certification upon completion of the Program. The Institutional Recommendation verifies that graduates have met all course and clinical practice requirements to qualify for a Professional Standard Secondary Certificate in Arizona. The Program continues to involve and support graduates. The Alternative Path Program has a robust Professional Learning Community, designed to serve the induction

needs of new teachers who have graduated from the program. The Sin Fronteras program strives to support the professional development needs of regional teachers in southeastern Arizona. The monthly professional development sessions are offered during the academic year to provide participants a choice of content in pedagogical
