

# The Center for Recruitment and Retention of Mathematics Teachers

## ABOUT US

The CRR was created in August 2001 to address the shortage of qualified mathematics teachers at the middle and high school levels. The Center now offers various services to support mathematics learning for all of Arizona's students, teachers, and families.

## VISION

An excellent mathematics teacher for every child.

## MISSION

To attract, develop and support new mathematics teachers, and engage current mathematics teachers in re-imagining mathematics learning through innovative programs, retaining high-quality teachers in mathematics education.

## OUR PROGRAMS & SERVICES

### MATHEMATICS EDUCATOR APPRECIATION DAY

- Arizona's largest K-16 mathematics conference brings together mathematics teachers of all levels from across the state

### TEACHER WORKSHOPS

- Deepens preK-12 teachers' understanding of mathematics and promotes student-centered learning

### IMPACTS PROGRAMS ( K-8, and HIGH SCHOOL)

- K-12 teachers attend year-round workshops focused on collaboration and leadership, including summer sessions, to experience effective instructional strategies and develop leadership skills

### NEW TEACHER INDUCTION

- Provides support and coaching for first and second year secondary mathematics teachers

### HERBST ENRICHMENT MATHEMATICS SEMINARS (HEMS)

- K-12 teachers attend Saturday workshops presented by an exemplary colleague and are paid a stipend

### AMERICORPS STEM TUTORING

- Recruits UA, PCC, and high school students to assist teachers in local classrooms and mentor students

### AP PRECALCULUS, CALCULUS AND STATISTICS

#### PRACTICE EXAMS

- Provides students a college site experience and prepares them for success on the national College Board exams

### RE-ENGAGING ASPIRATIONAL LEARNERS (GETTING REAL)

- A before/after school program supporting learners with high absenteeism the previous year
